International Meeting of Echocardiography "Applying imaging in clinical cardiology"

Organized By School of Cardiology,
University of Messina
and PhD Course on Clinical Application
of Cardiovascular Imaging, University of Messina

Saturday, October 27

Round table: Imaging on interventions A. Balbarini, F. Saporito, C. Vassanelli

- 12.30 - 12.45 Mitral regurgitation devices (*S. Scandura*)
- 12.45 - 13.00 Closure of PFO and ASD (*B. Khandheria*)
- 13.00 - 13.15 TAVI (*C. Sgroi*)
- 13.15 - 13.30 MRI in interventional cardiology (*A. La Manna*)
- 13.30 - 13.45 Discussion
- 13.45 - 14.45 Lunch

Round table: Diagnostic and impact of cardio toxicity of chemotherapeutic agents

S. Felis, V. Montemurro, A. Pezzano

- 14.45 - 15.00 Current and future perspectives of chemotherapy (*V. Pitini*)
- 15.00 - 15.15 The cardiotoxicity of old and new chemotherapeutic agents: state of the art (*N. Maurea*)
- 15.15 - 15.30 The role of echocardiography in the evaluation of organ damage (*B. Khandheria*)
- 15.30 - 15.45 The role of RM in the evaluation of organ damage (*G. Di Bella*)
- 15.45 - 16.00 Discussion

Last two years update in echocardiography and multimodalities images in the evaluation of aorta G. Bellieni, G. Gullace, F. Patanè

- 16.00 - 16.15 Multimodalities imaging in the evaluation of normal aorta (*D. Pavan*)
- 16.15 - 16.30 Multimodalities imaging in the evaluation of acute disease (*F. Antonini-Canterin*)
- 16.30 - 16.45 Multimodalities imaging in the evaluation of chronic disease (*F. Benedetto*)
- 16.45 - 17.00 Multimodalities imaging in the follow-up of interventional procedure (*F. Spinelli*)

CME Questionnaire evaluation and closing remarks
